

Inside the YemPak (Yemen-Pakistan) factory, which was inside the multi-billion \$\$\$ Hayel Saeed Anam Group's secure hilltop headquarters' compound (13.586, 44.033), at PO Box 5302 Taiz Yemen. Six day installation, Monday 22 September 1997:

A Pakistani chemistry graduate asked me about visiting New York as a tourist. I spoke of the 1993 World Trade Center bombing & told him to be aware when flying, incase of a suicide hijacking being used to attack the WTC, saying Logan airport Boston had no security whatsoever - nothing.

The next day another Pakistani chemistry graduate asked me about Logan airport security. I showed him my box cutters & said they wouldn't need a bomb, just basic pilot training.
