

On 26 September 1997, the last day of my business visit to the YemPak factory, the managing director Saeed Alrobaidi, aka the Chief, delayed my departure to arrange these group photos. The Chief introduced me to 'the Engineer' and although we did not speak or shake hands the Engineer put his arm around me for the photo. I asked why I'd not been introduced to the Engineer before and the Chief replied:
"He's working on other projects."

I now have no doubt whatsoever that the Engineer was Khalid sheikh Mohammed and the man I worked with and knew as Dino is Ahmed al Darbi.
